Personal Profile

Full stack Web developer with a background experience in ecommerce.
I successfully completed BS honours in web Systems development in the past. I am a lifelong student who embraces the digital world . I have knowledge in a variety of scripting languages such as Javascript , debugging processes and also multimedia web tools. I am capable of efficiently coding web applications with user experience in mind . I am a hard worker with attention to details and a team player. I am seeking the opportunity to learn more and accommodate myself with more complex web applications.
